

HOW DO I PRINT DOUBLE SIDED ON MACOS?

Purpose

The purpose of this document is to provide instructions on how to print double-sided on a Mac OS.

Requirements

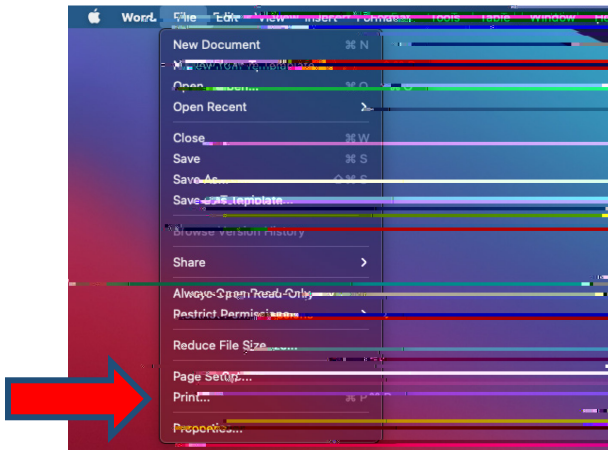

A Mac OS computer with a printer connected to it.

Notes

The instructions are for Mac OS 10.15.7 and later. For earlier versions, the steps may vary slightly.

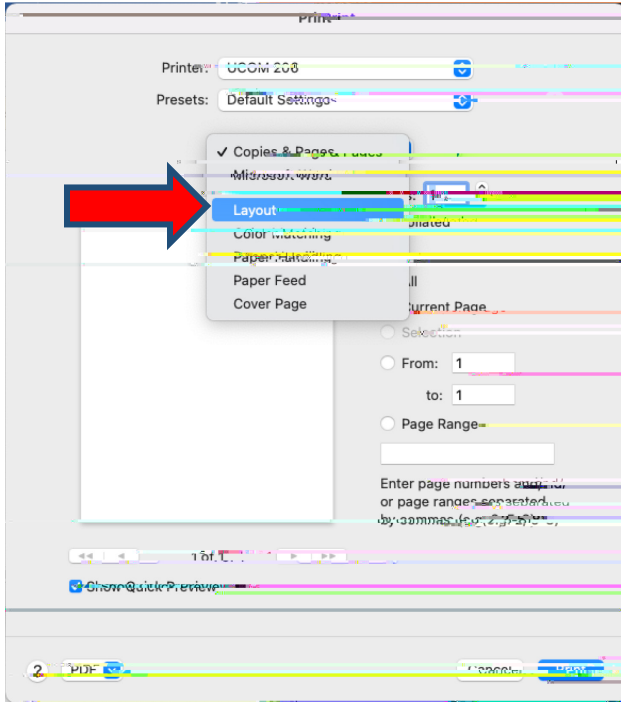

Process

1. Open the document you want to print.

HOW DO I PRINT DOUBLE SIDED ON MACOS?

2. In the Print dialog, click on the Layout button.

3. In the Layout dialog, click on the Two-Sided button.
